Day 3: Volcanoes National Park

The park protects the Rwandan side of the Virunga volcanoes, a range of six extinct and three live volcanoes which shelter some of the last remaining mountain gorillas in the world. This park gained world notoriety for the work Dian Fossey conducted here.

After an early breakfast, drive to the Volcanoes National Park Headquarters where you are allocated a gorilla tracking group. Following a briefing by your gorilla tracker/guide, the adventure begins. Today's hike may take anything from one to five hours to reach the gorillas depending on the location of the family. You'll walk through farmland, bamboo forests and rainforest. Upon sighting the gorillas, stay with them for a magical hour as they go about their daily habits, feeding, foraging, playing, resting and attending the young. Afterwards, return to base where your driver awaits. Lunch is back at the lodge and this afternoon enjoy a scenic drive to view the twin lakes, Ruhondo and Burera, with the spectacular backdrop of the Virunga Volcanoes.
